

Here are the glosse and the footnote that I want to add in my paper:

- (1) (a) *\*ha-toxnit ha-zot be-xavana medaberet el ha-no'ar*  
the-show the-this deliberately talks to the-youth

1

Underneath I have indicated where I would want the footnote (FN) to be placed:

- (2) (a) *\*ha-toxnit ha-zot be-xavana medaberet el ha-no'ar*(FN)  
the-show the-this deliberately talks to the-youth

---

<sup>1</sup>The sentence is grammatical with the interpretation that the show deliberately addresses the youth, but not with the interpretation that the show appeals to the youth. (S. Lev, p.c.)
