H₂: Issues that are under EU competence automatically lead a greater interaction of the national policy network with European level, which in turn leads to greater attempts at uploading.

ces of *Code 2a* are with greater frequency issue areas which are EU competence than for those : bilateral options exist, onally, instances of *2b* are found.

H_{3a}: Countries with a more 'European' domestic political culture are more willing to 'download' issues from the EU agenda to the national policy agenda.

3 and 3a coincide.

'something country X does'

Code 3b: Interviewee mentions interaction at the EU level as building up trust or a community

Codes 3 and 3b coincide; part two of the hypothesis holds if this evidence is stronger in countries where *H_{3a}* also holds.

H_{3b}: Socialization by interaction at the European level influences a country's willingness to download, and is stronger in countries for which *H_{3a}* holds.
