*Rev. 1 / 24-APR-2008*

## **Abstract**

Place document abstract summary here, do not get too in depth, this is a quick summary/highlight. Reference the system the process applies to and anything relevant.

## **Contents**

**1 Example**

**2**

## 1 Example

Notes are easily placed with the `marginlabel` command

This is an example paragraph under a section. Note that this class gives a large area on the left for extensive marginnotes.

! → It also provides an easy attention grabbing method.
